01 EMPLOYMENT HISTORY

07/2021 — Present	Salesforce Developer at Capgemini	<i>Milan</i>
	I began my journey at Capgemini by participating in a six-week Salesforce Academy, supported by XCC. The purpose of the academy was to provide the preparation necessary to take the first two Salesforce certifications, in my case Platform App Builder and Platform Developer I. I was then allocated to different projects, where I could and can challenge myself and improve my technical and non-technical skills.	
07/2018 — 07/2019	Sales Assistant at Adidas	<i>Milan</i>
	My experience at Adidas was very similar to my experience at Foot Locker, I found it very helpful to have to readjust to a new work environment and it was challenging to be able to work and engage with a completely new team.	
10/2018 — 07/2018	Sales Assistant at Foot Locker	<i>Milan</i>
	In my job at Foot Locker I learned store management, opening and closing the store independently. Learning about KPI monitoring was very interesting. I definitely improved my skills as a sales person. I like to challenge myself and improve myself by learning new things all the time.	
09/2013 — 09/2017	McDonald's Crew at McDonald's	<i>Olgiate Olona</i>
	Through my experience at McDonald's, I improved my level of organization, as preparation for rush hours and teamwork needed to be flawless.
